We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "CURE" expels the miasmatic poison of Favan And Agus from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Feven and Acue prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Ferer and Ague is not alone the consequence of the mineral in the intrinsion, among which are Neuralgia, Rhemants, Gout, Hendache, Bhindness, Toothache, Eanthe, Catarrh, Ashma, Palpitation, Painful Affectue: of the Spleen, Hysterica, Pain in the Bowels, Colte, Paralysis and Derangement of the Siomach, all of which, when originating in this cause, put on the infertions type, or become periodical. This "Curs" expels the poison from the blood, and consequently cure them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken eccasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.
